Free Breakfast & Lunch for All Students for School Year 2021/2022

CPS, Food Service Department, strives to ensure that all of our students have the opportunity to eat well-balanced, nutritional meals while at school.

The USDA has extended flexibilities to allow us to continue to serve free meals to all students for the 2021/2022 school year. This allows Charlotte Public Schools to offer meals to all children at no charge through the end of 2021/2022 school year. Like us, the USDA knows the challenges many families still face to make ends meet and the need for students to access meals.

In exchange for a healthy breakfast and lunch at No charge to your child, we need each household to fill out and sign the Household Information Report each school year.

This report is critical in determining the amount of money that our school receives from a variety of State and Federal supplemental programs like Title 1 A, At-risk (31a), Title IIA, E-Rate, etc. These supplemental programs have the potential to offer support and services for our students including, but not limited to:

- Instructional supports (staff, supplies & materials, etc.)
- Non-instructional services (counseling, social work, health services, etc.)
- Parent and Community engagement supplies and activities
- Technology

Please complete and submit the House Hold Information Report to the Food Service Department or any CPS school office after July 1, 2021, to ensure that additional funding for our school is available to meet the needs of our students. All information on the report submitted is confidential. Without your assistance in completing and returning this report, our school cannot maximize the use of available State and Federal funds. If you have any questions please contact Food Services at (517) 541-5142.
